

Web Announcement 16

Claim Reminder for Provider Type 12:

Outpatient Hospital Providers (provider type 12) who render outpatient services are required to bill with a revenue code AND a procedure code (CPT or HCPCS) on each line of the UB-92 claim form. (See Fields 42 REV.CD. and 44 HCPCS/RATES.)

The procedure code, not the revenue code, determines the rate of payment for the services rendered.

Without the appropriate procedure code, the claim will deny.

Please adjust your billing practices accordingly.
